Hello! I'm a software engineer graduated from the Technological University of Havana (CUJAE) with 2 years of experience as a software developer. I am proficient in Spring Boot, Laravel and Angular frameworks. My strengths include excellent communication and teamwork abilities, sound decision-making and problem-solving skills, a high level of responsibility, and an eagerness to learn and improve. As a software engineer, my ultimate goal is to develop impactful software solutions that enhance people's lives while advancing my development skills and knowledge.

Education

Technological University of Havana José Antonio Echeverría (CUJAE)   *Havana*

SOFTWARE ENGINEERING   *Sept. 2015 - Dec. 2020*

- GPA: 4.67 / 5

Skills

Programming	Java, Javascript, Typescript, PHP, Groovy, HTML5, CSS
Frameworks	Spring Boot, Laravel, Grails, Angular
Databases	PostgreSQL, MySQL
Other skills	Docker, Git, Github, SCRUM, Gitflow
Languages	Spanish, English

Experience

Cleverpy Machine Learning   *Valencia, Spain*

BACKEND DEVELOPER   *Jul. 2022 - Present*

- Designed and developed scalable RESTful APIs using Spring Boot and PostgreSQL related to the the water treatment and the integral water cycle
- Wrote unit and integrated tests using JUnit, RestAssured and Mockito, ensuring high code quality and reducing the risk of bugs and regressions in production
- Optimized database performance by fine-tuning queries, resulting in a significant reduction in response time
- Collaborated with cross-functional teams to gather requirements, design solutions, and troubleshoot issues, fostering a culture of continuous improvement and collaboration

Dofleini Software   *Havana, Cuba*

SOFTWARE ENGINEER   *Mar. 2021 - July 2022*

- Worked on FlitePath Project (link here), Integrated approach to managing innovation and entrepreneurship programs.
- Implemented new features: message system, survey creation/evaluation feature, etc.
- Improved existing features: Email Notifications, Reports and Analytics, etc.
- Corrected bugs and optimized code
- Used Grails framework alongside Jquery and MySQL
- Employed Scrum for project management and adopted Gitflow as our collaborative workflow process.

Che Guevara Study Center   *Havana, Cuba*

SOFTWARE ENGINEER   *Ene. 2021 - Jul. 2022*

- Developed a web application for managing the documentary archive of the Center, using Laravel, MySQL, jQuery, Bootstrap, and Docker
- Developed the Center's website, using Angular, Laravel and MySQL
